1. **Brewers Wall, J. Hunt, Restored in 2019 by Deana Hoover 1995**
Originally done in 1995 by J. Hunt, this mural was restored in 2019 by Deana Hoover. It depicts the famous Millard family that ran the Carson Brewery Company at the turn of the century. Restoration was funded in 2019 by the AARP Community Action Grant and is based upon a 1934 photograph of Carson City Brewing Company employees. The mural stands in approximately the same location where the actual photograph was taken. Sponsored by BAC.

These all seemed like fun things to paint and showcase in a beautiful mural that will be seen by art enthusiasts on a regular basis. I couldn't have asked for a better place to paint for the inaugural Carson mural fest." Sponsored by BAC and Visit Carson City.

A Halo and a Feather - A.R.T. Richmond @art.alwaysrealizetruth (east facing) 2023
Feathers have been both utilitarian and symbolic to cultures around the world since the beginning of time and used in everything from writing utensils and clothing to ceremonial tools. The feather is an extension of our connection with Nature and a golden halo rests behind it representative of the sanctity that Nature presents us. The tip of the feather is painted with the primary colors and gold as these are the holy trinity of colors and the base to which all colors are created. The mural sets out to reestablish that connection with Nature through use of color and symbolism. Sponsored by F.I.S.H.

47. **Runaway Carriage - Bill Louis @biltslouisart 2023**
"Travel by stagecoach across the Nevada in the 1800's was the best way to take multiple people during the Comstock era. Pioneer Stage lines, Wells Fargo and Butterfield were some of the stage lines that worked the area then. My interpretation in this piece is to represent the history of travel in Nevada with the means they had in those times. The color scheme is influenced by the luscious plains and sunsets in the West. Sometimes you lose a driver in the midst of travel hence the title: "Runaway Stagecoach". Sponsored by Wells Fargo.

"I love celebrating the close proximity to nature and mountains in Carson City. Finding moments of freedom is so important and it helps connect us to what matters."

52. **NV Folklore - Pan Pantoja @pan.pantoja**
This mural took me 3.5 hours to paint, but it took me 30.5 years to be that fast. It wasn't premeditated nor did I know where I would be painting prior to my arrival. The wall was the most difficult of the lot, with a tree, various hazards, and malfunctioning lift equipment. The animals depicted can all be found in Nevada folklore and history.

53. **A Bouquet of Flowers - Nathaniel Benjamin @nathaniel.benjamin**
"I wanted to paint 5G because they're all over the place but are often hidden or occupying the background of our visual field. By using the traditional flower portrait to center the towers, I wasn't trying to say anything specific except for 'look at these things.' Recontextualizing something mundane is a fun way to encourage people to think more deeply about the commonplace and that's what I wanted to do here."

54. **Heal-All - Dave Young Kim @daveyoungkim**
In this piece, the artist reinterprets traditional Korean embroidered motifs by incorporating elements unique to the local environment. The large white birds featured are Great Egrets native to the area. Each holds a sprig of Heal-all (Prunella vulgaris), a local herb known for its remarkable healing properties and traditionally associated with eternal youth. The background showcases stylized clouds, rocks, and surging waves, all of which are auspicious symbols believed to bring favor and prosperity to those nearby.

Espíritu de Nevada / The Esco-bar Edwin "Esco" Martinez @martinezesco 2023
"I was fortunate to work with the amazing people at the Carson City Chamber of Commerce, we met and came up with a few ideas for the building. On the north wall we ended up with "Espíritu de Nevada", a herd of wild mustangs standing tall during golden hour, each horse representing strength, resilience, freedom & beauty. On the West side of the building I decided to paint "The Esco-bar" a tribute to The Glenbrook steam engine train that travel the Virginia Truckee railroad and is also known as the "Queen of the short lines" we came up with this concept since the building sits on the Nevada State Railroad Museum site."
